A world without school

Everybody would be dumb. everybody would probably die because there would be no doctors. people would have rotting teeth cause there would be no dentist's.you would die from bacteria and viruses cause there would be no pharmacies.

and there would be no electricity
Cause the person who invented electricity would be dumb science would not be a thing cause you need to go to school to be a scientist.

 And if you don't go to school you can't be a scientist so there would be no cure for viruses so everybody would die. sports would not be a thing cause
You need to go to school to get drafted to any sport and you need to be smart to play.

people would not be able to get a good job so people would be homeless. people will not be famous so that would mean no entertainment so everybody would
Be cranky.

A world with school

people would be smart. And have good teeth because the dentists would go to school and they have the experience to go into people's mouths to get cavities out.

 People would
Be living because doctors would not be dumb. and pharmacist would have medicine for viruses
So people would not die when a virus happens.

 people would be safe they would not die so quickly they'd die at like 80 or 59 any age you could die it's life.

people would be happy cause technology would be a thing so people would be happy cause tv shows would be a thing so people would be so happy that tv shows were invented.
